End Date Sep 30, 2018
EC Contribution 7,619 EUR
Partners Verein4YOUgend (AT)
Topics Youth (Participation, Youth Work, Youth Policy) ;
Intercultural/intergenerational education and (lifelong)learning ; EU
Citizenship, EU awareness and Democracy

Project Summary

EVS project of the City of Vienne.

Since 2005 the City of Vienne is entitled to welcome young people on its territory in the framework of the European Voluntary Service Erasmus+ programme Youth & Sport (Accreditation as Receiving and Coordinating organization). A particular emphasis was placed in 2016 on this youth mobility scheme (presentation of experience of 10 years of European voluntary service). Twelve years later EVS still has positive effects on Vienne.

The mutualisation of the International Relations and Youth departments allows hosting a young volunteer at the Municipality of Vienne.

Hosted volunteers have the opportunity to discover how a French local authority works and to get implied into different areas, such as youth policy and international relations.

This cross-sector approach of the two departments allows volunteers to reflect on different projects targeting the promotion of Europe and works with youngsters (exhibitions, international concerts, creating devices/tools, awareness campaigns about European elections, actions to be put in place around European mobility, etc.).

The City of Vienne hosts a volunteer for a period of ten months (long term EVS) where the youngster will be in position to emphasise his/her abilities and knowledge through different missions :

1 / Exchange, propose and assist:

- provide his/her own experience to other volunteers, foreign partners, students, etc.
- be able to propose some actions with and for local organizations (associations, municipal structures or multi-territories)
- assist and support youngsters in theirs projects
- assist in the setting up of seminars and trainings for young people and youth workers

2 / Allow both youngsters and Vienne operators/skilled workers to better understand international mobility: promote EVS commitment and mobilities plan, multiculturalism, etc.

3 / Contribute to events that promote Europe: involvement in the missions of the Youth Information Centre and International Relations Department when they host foreign partners and delegations, propose European workshops, etc.
