The successful candidate will have a strong background within a similar role and ideally have worked for a global business.

Job Responsibilities:

- Support for sales analysis for internal, inter-company and customer use
- Support initiatives including managing team targets to deliver business KPI's
- Providing regular, relevant and up to date promotional analysis, which determines promotion and pricing strategies
- Support for delivery of sales, waste and margin performance reports, including development to provide optimum visibility of trends to support decision making
- Analysis of sales and cost data to support business cases for project activities, justification for change
- To work closely with finance teams to give decision and result support data with management reporting
- Support the IS team to develop best in class management information tools for the business
- Working closely with retail teams to monitor performance versus plan to achieve KPI's and take remedial action as required
- Harness inter-company relationships that foster improved processes and support achievement of business KPI's
- Keep current on European industry trends that could lead to new initiatives that drive profitable growth
- Represent retail teams on project teams as required

Preferred Skills:

- Experience in either commercial or analytical role, ideally incorporating a retail business
- Ability to deliver business data and analysis including KPI's, business cases and target models
- Ability to speak a minimum of one European language as well as English is essential
- Excellent communication and interpersonal skills with the confidence to deal with internal teams and external suppliers/customers at all levels

Personal Attributes:

- Excellent technical, analytical and problem solving skills
- Detail focused, throughout analysis and systems development
- Capable of identifying trends and acting on own initiative to identify root causes and develop options for resolution or improvement
- Comfortable working in a fast paced environment often under pressure
- Strong interpersonal skills with the ability to develop long term relationships and to get various teams to work together to achieve shared objectives
- Organisational skills, ability to manage workload to achieve critical dates.

Associated Benefits:

- 25 days annual leave, plus bank holidays
- Private healthcare (after qualifying period)
- Group pension scheme
