

Dear sir or Madame

We are a young Scout group with teenagers between fourteen and sixteen years old from Málaga (Spain).

We are interested in doing a project with another group of young people from any part of the world because we want to know about other cultures, places and people.

As a Scout group we use to do lots of activities to foment healthy live and the environment, as well learning about many other topics.

We are helpful, sociable, funny and trustworthy. We like sports, music and we like to meet new people that are willing to spend a great time with us.

If you choose us for your project we ensure you that you will win a great friendship and you will have good memories afterwards. Also, we promise to put a lot of effort in pulling this project forwards and to aid in anything necessary. It doesn't matter where we could go because what we mind is having fun and meet new people.

With a greeting from Malaga,

Unidad Esculta Siryu.
