

Erasmus + KA1 – Training Course

## ***Developing Entrepreneurial Abilities Laboratory II***

**Activity 1: Seminar, 29 June 2019 (arrival) – 05 July 2019 (departure)**

Tipperary, Ireland ([www.trys.ie](http://www.trys.ie))

**Activity 2: Training, 24 August 2019 (arrival) – 31 August 2019 (departure)**

Florina, Greece ([www.oenef.eu](http://www.oenef.eu))

### **Description of the project:**

Project DEAL – Developing Entrepreneurial Abilities Laboratory aims to gather youth workers, your leaders and youngsters with entrepreneurial spirit in order to empower young people and motivate them to find their passion in life and turn it into action. We aim to create a safe learning environment where young people will be able to learn and experiment with ideas, methods, skills and tools bringing them closer to innovative entrepreneurship. Special emphasis will be given on developing their key competences. The project aims to ensure an entrepreneurial approach to solving social and environmental problems and to encourage and support the development of a new generation of social entrepreneurs.

### **PROJECT STRUCTURE and DETAILS**

---

This project consists of two interconnected activities; the first one being a seminar and the second one a training course. The concept relies on creating a solid basis for the participants in regards to social economy and social entrepreneurship, and then train these participants on practical tools and enhance the necessary competences engage in entrepreneurial processes. We suggest that the time between the two events is no longer than 2 month. There is no age limit. We encourage the participation of youth workers that work with young people with fewer opportunities and directly youth with fewer opportunities.

## **AIM AND OBJECTIVES**

---

The aim of the project, including both events, is to equip youth workers, youth leaders, project managers, youth that are involved or plan to be involved in social entrepreneurship initiatives, with the necessary tools and competences regarding social entrepreneurship. The activities will ensure an entrepreneurial approach to address challenging issues of communities and to encourage and support the development of a new generation of social innovators and social entrepreneurs.

The training is tailored in a way that can be used by the youth work and educational communities (transferring the know-how and being able to coach, support, youth entrepreneurial initiatives), but also for youth that would like to start their own social enterprise.

### **ACTIVITY 1 - SEMINAR (5 working days + arrival/departure), Tipperary, Ireland**

---

The seminar will allow us to create a solid basis in regards to social economy and social entrepreneurship. At this stage, we will explore the background and definitions social economy is, what a social business is and is not, identify different models of social businesses, show-case practices and assess success factors, invite keynote speakers from the academia but also the field to give intriguing, useful and critical input, and present a competence model for social entrepreneurship on which participants can assess themselves. Furthermore, we will address Erasmus + but also other funding opportunities for social business start ups and for social entrepreneurship education. The seminar will give participants the necessary information, and will allow them to go through a self reflection to the extend of feeling ready and comfortable to move on to the second stage; activity 2 - training course.

### **ACTIVITY 2 - TRAINING (6 working days + arrival/departure), Florina, Greece**

---

The training course will focus on giving participants the tools to create their own social business plan. This will take place through the presentation and practice of different relevant tools but also through workshops on particular key entrepreneurial competences. The input, depending on the profile of the participants, their needs, learning preferences but also the dynamic of the group developed in the seminar might involve: Theory, Tools and Competences.

KOKEN	Cyprus	275€	3

## Travel arrangements

Arriving in Dublin Airport the ideal way to get to Tipperary is to travel by train from Heuston Station Dublin to Limerick Junction and be collected and taken to the HOTEL where the event will take place.

Once landed in Dublin Airport you should take a bus from Airport to Heuston station, bus Airlink 747 available at terminal see link for details. This will take you to train station 25 mins

<http://www.dublinbus.ie/Your-Journey1/Timetables/Airport-Services/>

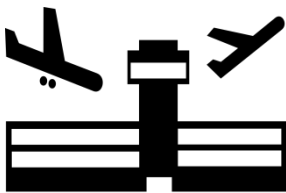

Once at station you will need to take a train to **Limerick Junction** it is important that it is Limerick Junction and NOT just Limerick as they are two different locations .This train will take approx. 1.30-2 hours to reach its destination.

<http://www.irishrail.ie/timetables/timetable-pdfs>

Once in Limerick Junction we will try to ensure we have staff there to meet you and bring you to your accommodation.

Hotel to be confirmed

Please look at train ticket in advance and preferably book them, but be mindful the last train leaving Dublin may be 21.00. The more we know in advance around you arrival times the more assistance we can offer.

Dublin Airport

Heuston station Dublin

Limerick Junction Tipperary

**You can start recruiting participants and when you have made your decisions  
please ask them to fill in this online form:**

**<https://forms.gle/piEYdvGQc8sg72Q76>**
